GAS ABSTRACTS INDEX

VOLUME 14

1958

AFFILIATED WITH

ILLINOIS INSTITUTE OF TECHNOLOGY

AUTHOR INDEX

A

Abbott, M. D., Archibald, R. C. and Dorn, R. W. *Hydrogen Improves Cat Cracker Feed* 173

Abell, C. *How to Cut Delivery Costs* 259; *How to Sell Gas Clothes Dryers* 286; *How to Sell Gas Heating* 190; *How to Sell Gas Ranges* 98; *How to Sell Gas Water Heaters* 126; *Needed—Motor Fuel Standards for LPG* 145; *Revolution on the Pork Chop Front* 81; see Miller, H. J.

Abelson, M. See Shultz, J. F.

Aberdein, S. G. and Tyrell, A. E. *Recent Trends in the Industrial Utilization of Gas* 301

Ackerman, H. S. *Midget Gas Fired Hot Water Boiler* 236

Ackerman, V. L. and Lewright, W. K. *Microwave Radio Control Developments* 308

Ackerson, C. *Reconditioning Steel Drums at Crossroads of Industry* 114

Adams, C. L. *Russia Is Making an All-Out Bid for Gas Reserves* 162

Adams, E. *Deep Wells Increase 28%* 100; *Oil Companies Face USSR Competition* 189

Adams, J. F., Massey, W. L. Jr. and Dmytryszyn, M. *Computer Speeds Economic Evaluations* 208

Adams, J. W. *How to Heat the Useful Space* 339

Adams, L. W., Herscher, L. W. and Ruhl, H. D. *On-Stream Control with an Infrared Analyzer* 213

Adams, N. G. See Boggus, J. D.

Adler, S. B. See Friend, L.

Africa, W. M. See Gollmar, H. A.

Agazzi, E. J., Fredericks, E. M. and Brooks, F. R. *Microdetermination of Sulfur and Halogens by Rapid Automatic Combustion* 266; see White, T. T.

Agius, P. J. and Mulvey, D. *Mechanism of Sludge Suspension in Engine Oil* 277

Agnew, J. T. See Eschenbach, R. C.

Aikman, A. R. See Roberts, J. B.

Akeley, L. T., Batchelder, L. A. and Cleveland, D. S. *Gyro-Integrating Mass Flowmeter* 334

Akimov, G. V. *Processes of Electrochemical Corrosion* 291

Akin, G. A., Reid, T. F. and Schroder, R. J. *New Cracking Process for Acetylene and Ethylene* 36

Albright, L. F. and Innes, K. K. *This Equation Gives Viscosity* 60

Aldridge, B. G. See Chute, A. E.

Aldridge, C. L., Fasce, E. V. and Jonassen, H B. *Heterogeneous Character of Hydroformylation Catalysis* 229

Alexander, A. B. Jr. See Roberts, J. B.

Alexander, J. D. See Martin, W. L.

Alexander, W. H. and Bradley, R. L. *Would a CO Boiler Pay Off in Your Plant?* 209

Allbee, A. H. and Pees, S. T. *Drilling in Maranon Basin of Peru* 102

Allen, A. O. See Caffrey, J. M. Jr.

Allen, H. *Safety in the Use of Chemicals* 127

Allen, H. C. Jr. and Plyler, E. K. *Structure of Ethylene from Infrared Spectra* 214; see Plyler, E. K.

Allen, J. E. *Thermonuclear Power and the Pinch Effect* 222

Allen, J. G. and Smith, G. L. *Phillips' Sweeney Logger . . . It Helps Ethylene Unit Operators* 312

Allen, T. O. and Hough, E. W. *Evaluation of Fracturing Fluids* 31

Aller, B. V. *Raney Cobalt Hydrogenation Catalysts. Part II* 108; *III* 294

Alpert, N. L. See White, J. U.

Altfillisch, M. D., Cherniak, G. S., Powers, H. A. and White, R. B. *Flow Control Devices for Flowmeters* 86

Altman, A. See Schamp, H. W. Jr.

Altom, A. B. *Chromatography Has Become a Valuable Tool as a Guide to Fractionator Operation* 149

Altstaedt, W. See Lehrer, E.

Amber, G. H. *Proposed Standards for the Practice of Systems Engineering* 157

Amberg, C. H. *Gas-Liquid Partition Chromatography of Organic Sulphur Compounds* 91

Ambridge, C. See Ewanchyna, J. E.

Ambrose, D. A., Keulemans, A. I. M. and Purnell, J. H. *Presentation of Gas-Liquid Chromatographic Retention Data* 292

A.G.A. Committee on Underground Storage *Underground Storage of Gas in the United States. Seventh Annual Report on Statistics* 172

A.G.A. Pipeline Research Committee *Pipeline Research 1958* 317

Ames, J. *Silicones and Their Applications* 53

Amis, E. S. See Blair, J. W.

Ammar, I. A. and Riad, S. *Effect of pH on Corrosion Potentials* 88

Amphlett, C. B. *Ion Exchange in Clay Minerals* 243

Amstutz, R. W. *Corrosion Problems in Water Flooding* 166

Amundson, N. R. See Aris, R.

Anantanarayanan, R. and Ramachandran, A. *Effect of Vibration on Heat Transfer from a Wire to Air in Parallel Flow* 316

Andersen, W. H. See Barsh, M. K.

Anderson, E. *Review. Operation of Nuclear Power Stations on the Grid System* 249

Anderson, F. W. and Moser, J. H. *Automatic Computer Program for the Reduction of Routine Emission Spectrographic Data* 150

Anderson, G. L. *Gas Detector Is Valuable Tool for Wildcat Drilling* 224

Anderson, J. R. *Catalytic Hydrogenation of Benzene and Toluene over Evaporated Films of Nickel and Tungsten* 40

Anderson, K. B. *How to Increase Hp 17 to 40%* 170

Anderson, K. E., Lanigan, R., Liegey, F., Worden, J., Yackovich, F. and Finan, A. *Development of New Bactericides and Flood Water Treatment Based upon the Physiology of the Sulfate Reducing Bacteria* 252

Anderson, P. P. Jr. *Air Conditioning* 288

Anderson, R. B. See Hiteshue, R. W.; Karn, F. S.; Shultz, J. F.

Anderson, R. E. See Wheaton, R. M.

Anderson, S. B. *Study Reveals Mississippi Series Possibilities* 324

Andrews, D. A. *Civil Engineering Design in the Gas Industry* 62

Andronikashvili, T. G. See Sokolov, V. A.

Angel, J. L. *Internally Fired Gas Burner* 115

Angel, R. R. *Volume Requirements for Air or Gas Drilling* 9; see Bobo, R. A.

Apitz, C. R. *Cheaper Power with Gas Turbines* 47; *Economics of Gas Turbine Drivers in the Refinery* 22

Appell, H. R. and Berger, C. V. *Decomposition of Hydrocarbons, Pyrolytic and Catalytic* 280
Apthorp, H. *Magnesium Sand Castings; Heat Treating by Gas* 234
Arajs, S. and Legvold, S. *Electroconvectional Heat Transfer in Gases* 296
Aranoff, S. See Smith, A. W.
Archibald, R. C. See Abbott, M. D.
Arden, E. A. and Powling, J. *Methyl Nitrite Decomposition in Flame* 144
Arendt, J. J. and Savoy, J. *Data Logger Tested in Pilot Work* 193
Aris, R. *On Shape Factors for Irregular Particles. Parts I and II* 56; and Amundson, N. R. *Analysis of Chemical Reactor Stability and Control. Parts I, II and III* 116
Armstrong, N. E. *Automatic and Remote Monitoring and Control of Production and Transmission* 169; *Automating the Gas Transmission System* 226
Armstrong, W. E. and Davis, R. J. *Modifications to a Travelling Microscope Used for Measuring X-ray Powder Photographs* 92
Arne, F. *Manufactured Gas . . . Which Processes Will Be Used to Supplement Natural Gas?* 97
Arnold, H. R., Fawcett, F. S. and Gilbert, W. W. *Preparation of Normally Solid, High Molecular Weight, Hydrocarbon Polymers with Reduced Phosphomolybdic Catalysts* 112
Arnold, J. H. *Apparatus for Partial Combustion of Gasiform Hydrocarbons* 231
Arnold, J. W. *Lightweight Drill Pipe in Slim Hole Drilling* 163
Arnold, M. R., Bradbury, J. T., Keely, W. M. and O'Hara, F. J. *Hydrogenation and Hydrogenolysis* 281
Aronofsky, J. S. and Heller, J. P. *Diffusion Model to Explain Mixing of Flowing Miscible Fluids in Porous Media* 11; see Lee, A. S.
Aronson, M. H. *Introduction to Recorders* 180
Arps, J. J. *Profitability of Capital Expenditures for Development Drilling and Producing Property Appraisal* 217
Arthur, J. R., Commins, B. T., Gilbert, J. A. S., Lindsey, A. J. and Napier, D. H. *Formation of Polycyclic Hydrocarbons in Diffusion Flames* 336
Artukhov, I. M. *Conversion of Hydrocarbons for the Production of Gases Suitable for Chemical Synthesis* 173
Ash, R. S. *Greenhouse Climate Control* 43
Ashby, C. M. Jr. *Save $5000 Per Completed Well* 305
Ashley, K. D. and Innes, W. B. *Catalyst for Reforming Lower Hydrocarbons; Formulation Suitable for Extrusion of Same* 122; Stamford, C., Federman, S. I. and Innes, W. B. *Carbon Monoxide Conversion Catalyst and Method of Preparing Same* 8
Ashton, M. D. See Tailby, S. R.
Assel, W. J. *Mass Spheroidized Annealing of Alloy Seamless Tubing in Roller Hearth Furnace* 287
Atkinson, J. E. and Baker, G. G. *New Oil Base Mud Trims Cost and Improves Drilling* 164
Atkisson, A. A. See Chass, R. L.
Averett, H. J. *Erosion Control and Backfill Repair* 278
Ayres, H. J. See Waters, A. B.
Azarnoosh, A. and McKetta, J. J. *Solubility of Propane in Water* 352

B

Babb, A. L. See Himmelblau, D. M.
Bach, N. G. *How to Get More Accurate Plant Cost Estimates* 271
Backensto, E. B., Drew, R. E., Prior, J. E. and Sjoberg, J. W. *High-Temperature Hydrogen Sulfide Corrosion of Stainless Steels* 51; Drew, R. D. and Vlachos, J. N. *High Temperature Hydrogen Sulphide Corrosion in Commercial Sovaformer Units* 87; and Manuel, R. W. *Corrosion in Cat Reformers with Naphtha Pretreaters* 181
Baddour, R. F. See Gilliland, E. R.
Badger, E. H. M. and Jackman, M. I. *Loadings and Efficiencies in the Biological Oxidation of Spent Gas Liquor* 257
Badzioch, S. See Hawksley, P. G. W.
Baeder, D. L. See Lucchesi, P. J.
Bagby, F. L., Weller, A. E. and Steginsky, B. *High Temperature Environments Associated with Jet Propulsion* 286
Bagley, F. J. and Menzie, D. E. *Test of Connate Water Mobility* 224
Baird, J. D. and Taylor, J. *Reaction between Silica and Carbon and the Activity of Silica in Slag Solution* 153
Baker, A. F. See Morgan, R. E.
Baker, G. G. See Atkinson, J. E.
Baker, H. D. See Tea, P. L. Jr.
Baker, M. *Faculty Research, a Developer of Creative Thinking* 303
Baker, O. *Design Suggestions for Multiphase Flow in Pipelines* 214
Baker, W. L. *Oil's Economic Outlook Becomes Critical* 98
Balcar, F. R. *Practices and Methods for Transporting, Handling and Distributing Industrial Helium* 80
Balekjian, G. and Katz, D. L. *Heat Transfer from Superheated Vapors to a Horizontal Tube* 155
Ball, D. *How to Find an 'Aquifer' Gas Storage Field* 308
Ball, J. S. See Hubbard, R. L.
Ball, W. E. and Johnson, R. C. *Solve Second-Order Linear Equations* 94
Ballinger, E. P. *Moving Solid Particles with Fluids* 278
Baltosser, R. W. and Wilcox, S. W. *Optical Analog Computer Simplifies Gravity Analysis* 305
Bance, E. S. *Use of Instrumentation in Gas Distribution* 285
Bankoff, S. G. *Entrapment of Gas in the Spreading of a Liquid over a Rough Surface* 123
Baptist, O. C. and White, E. J. *Clay Content and Capillary Behavior of Wyoming Reservoir Sands* 11
Bard, Y. See Greenstadt, J.
Barfoot, L. H. *Relocation of Pipelines in Highway Improvement. Parts I and II* 254
Barking, H. and Eymann, C. *Insight into the Coking Process: Contribution on Coke Production from Gas Coals* 331
Barkow, A. G. *Modern Pipeline Field Welding and Quality Control* 199; *Pipeline Field Welding and Quality Control Methods* 279; and Clark, D. E. *Strain Gages Check Stress in Bridge Piping* 198
Barnard, W. R. *Which System Is Best?* 355
Barnebey, H. L. *Activated Charcoal for Air Purification* 77
Barnes, O. H. *Some Difficulties Experienced with the Condensers on an I.V.C. Plant* 72
Barnett, E. H. See Waldo, W. J.
Barnick, M. A. See Croxton, F. C.
Baron, S. *Eight Reactor Types—A Thermodynamic Comparison* 192
Barr, F. T., Ogorzaly, H. J. and Reiter, T. A. *Nuclear Radiation in Chemical Processing* 332
Barr, N. F. See Henley, E. J.
Barrer, R. M. *Crystalline Ion-Exchangers* 185

Barreteau, F. L. *Bore Hole Apparatus* 306
Barrett, M. L. Jr. *Measuring Accuracy Is Improved by Two Meter-Proving Methods: Gravimetric, Volumetric* 70
Barry, M. J. and Williams, T. S. *Production of Nitrogen and Hydrogen for Ammonia Synthesis* 141
Barsh, M. K., Andersen, W. H., Bills, K. W., Moe, G. and Schultz, R. D. *Improved Instrument for the Measurement of Linear Pyrolysis Rates of Solids* 183
Barton, H. B. and Dykes, F. R. Jr. *Performance of the Pickton Field* 67
Bartz, D. R. See Hastrup, R. C.
Batchelder, L. A. See Akeley, L. T.
Batchelor, J. D. See Gorin, E.
Bateman, L., Glazebrook, R. W., Moore, C. B., Porter, M., Ross, G. W. and Saville, R. W. *Reaction of Sulphur ard Sulphur Compounds with Olefinic Substances. Part VII* 299; and Shipley, F. W. *Catalytic Hydrogenation of Unsaturated Sulphides and Sulphones* 281
Bateman, R. L. *Petrochemicals on the Move* 248
Bateman, S. J. See Van Poollen, H. K.
Bates, F. W. and Copeland, R. R. *Long-Range South Louisiana Oil Industry Outlook 'Good'* 164
Bates, O. R. *Aspects of Public Relations in Acquiring Rights-of-Way* 70
Bauer, E. and Zlotnick, M. *Evaporation into a Boundary Layer* 298
Bauer, R. F., Field, A. J. and Stratton, H. *Offshore Drilling for Onshore Prices* 193
Bauer, S. H., Schott, G. L. and Duff, R. E. *Kinetic Studies of Hydroxyl Radicals in Shock Waves. Part 1* 216
Baumann, F. See Spencer, C. F.
Baumeister, E. B. and Bennett, C. O. *Fluid-particle Heat Transfer in Packed Beds* 154
Bayes, F. S. See Carman, E. P.
Bayfield, W. W. *Natural Gas Delusion* 245
Baylis, W. C. *Power Supply and Space Requirements for Mobile Radio Communications* 226
Bayliss, B. P. *New Tool for Fighting Pipe Collapse* 195
Beach, F. K. *Natural Gas in Western Canada* 130
Bean, H. S. *Pulsations and Gas Measurement* 70
Beard, C. S. *Automatic Shut-Off Valves for Gas and Oil Transmission Lines* 254; *Receiver-Controller Transmitter Systems Applications* 284; and Marton, F. D. *Automation Emergency Valves* 209
Beavis, D. *Work Study: Three Years' Progress at Edinburgh* 158
Bechtold, I. C. *Complete Automation of a Process Plant* 179
Beck, C. B. See Dobbin, R. E.
Beck, C. W. and Beck, L. Y. *Hyperconjugation. Correlation and Calculation of Molar Volumes of Alkenes* 267
Beck, L. Y. See Beck, C. W.
Becker, H. E. See Wehrheim, W. H.
Becker, R. D. Jr. *Conversion to LPG Pays Off in Ready-Mix Concrete Fleets* 207
Beckwith, I. E. and Gallagher, J. J. *Heat Transfer and Recovery Temperatures on a Sphere with Laminar, Transitional and Turbulent Boundary Layers at Mach Numbers of 2.00 and 4.15* 296
Beckwith, S. *Method for Stopping Leaks in Tanks* 35
Bedard, E. E. *Protective Devices for Burning Fuel Safely* 116
Bedjai, G., Orbach, H. K. and Risenfeld, F. C. *Reaction of Nitric Oxide with Activated Carbon and Hydrogen* 233
Beerbower, A. *Controlling Fluid Processes with Continuous Viscometers* 180
Behlen, H. P. *Crop Dryers Mean Big Profits for Farmers and LPG Dealers* 234
Beitler, S. R. See Zimmerman, R. H.
Bell, W. E. and Shaw, J. K. *Evaluation of Iron Sequestering Agents in Water Flooding* 105
Belonos, S. P. and Ryan, R. S. *Dents in Pipe* 328
Belyanin, Y. I. See Pismen, M. K.
Bendler, E. P. and Lytton, C. W. *Ohio Oil and Gas Association Panel* 165
Benham, A. L. and Poettmann, F. H. *Thermal Recovery Process—An Analysis of Laboratory Combustion Data* 275
Bennett, C. E., Dal Nogare, S., Safranski, L. W. and Lewis, C. D. *Trace Analyses by Gas Chromatography* 149
Bennett, C. O. See Baumeister, E. B.
Bennett, D. A. See Weyermuller, G.
Bennett, J. R. See Ducoffe, A. L.
Benoit, R. L. See Mackiw, V. N.
Benson, H. E. See Bienstock, D.
Benson, R. E. and Castle, J. E. *Reactions of Freshly Formed Surfaces of Silica* 229
Benton, W. J. *Guard and Circuit-Testing Channel* 276
Bentz, K. *Hydrostatic Testing of Line through Fringe Area of City* 271
Benz, G. R., DeVoe, W. F. and Tucker, P. W. *1957 L.P. Gas Sales up 4.1%* 11
Berg, C. H. O. *Apparatus and Process for High Temperature Conversions* 174
Berg, W. B. *Short Course in LP-Gas Controls* 261
Berger, C. V. See Appell, H. R.
Berger, D. E. See Wherry, T. C.
Bergman, D. J. See Roberts, J. B.
Bergsteinson, I. and Laituri, M. J. *In California: Petrochemical Boom?* 73
Berisford, R. and Le Roy, D. J. *Reaction of Deuterium Atoms with Ethane—Mechanism of Methane Exchange* 187
Berk, A. A. *Use of a Condensate-Corrosion Tester for the Survey of Return-Line Deterioration* 88
Berkovich, V. B. See Grinenko, B. S.
Berkovitch, I. See Tailby, S. R.
Berkowitz, J. See Chupka, W. A.
Berkowitz, N. See den Hartog, W.
Berl, W. G., Gayhart, E. L., Maier, E., Olsen, H. L. and Renich, W. T. *Determination of Burning Velocity of Pentaborane-Oxygen-Nitrogen Mixtures* 45
Berlad, A. L. See Potter, A. E. Jr.
Bernard, J. W. *Three Ways to Estimate Instrumentation Costs of Process Plants* 49
Berry, A. L. and Moreau, B. L. *Predicting Pressure Drop in Gas-Condensate Pipelines* 95
Berry, N. E. *Refrigeration* 83
Berry, V. J. Jr. See Jacoby, R. H.
Bertolacini, R. J. *Analyze for Ba, Ca, and Zn This Way* 91
Bertram, F. W., Carlisle, O. T., Murray, J. E., Warren, G. W. and Connell, C. H. *Chemical Oxygen Demand of Petrochemical Wastes. Modification of the Standard Catalytic Reflux Procedure* 226
Berwin, T. W. See Liu, F. F.
Betchov, R. *Nonlinear Oscillations of a Gas Column* 277
Bethea, S. R., Heinrich, R. L., Souby, A. M. and Yule, L. T. *Production of Aromatics by Hydrodealkylation* 279
Bevans, J. T. See Gier, J. T.

Beynon, J. H. *Mass Spectrometer Mass Marker* 266; Clough, S. and Williams, A. E. *Derivative Mass Spectrometry* 183
Bezdel, L. S. and Teodorovich, V. P. *Solubility of CO_2, H_2S, CH_4 and C_2H_4 in Methanol at Low Temperatures* 299
Bianchi, J. *Use of Refinery Gas in the South of France* 257
Biedler, W. T. III and Hoelscher, H. E. *Studies in a New Type of Flat Flame Burner* 4
Bielek, I. *How to Prepare for Chemical Cleaning* 48
Bienstock, D., Brunn, L. W., Murphy, E. M. and Benson, H. E. *Sulfur Dioxide — Its Chemistry and Removal from Industrial Waste Gases* 257
Biggs, W. P. *Formation Evaluation by Sonic Logging* 193
Bilford, H. R. See Winter, P.
Biller, W. F. See Quiram, E. R.
Billingsley, D. S., McLaughlin, W. S. Jr., Welch, N. E. and Holland, C. D. *Use of Computers in Reactors Design* 146
Billington, E. R. See Poethig, R. E.
Bills, D. G. and Carleton, N. P. *Adsorption of Activated Gases* 152
Bills, J. L. *Production of Acetylene* 37
Bills, K. W. See Barsh, M. K.
Binder, G. G. Jr. See Lacey, J. W.
Binder, R. C. *Recent Developments in Fluid Flow* 55
Binford, J. S. Jr. See Blyholder, G.
Binney, H. D. *Blowouts Take a Fearful Toll* 246
Binning, R. C. and James, F. E. *Permeation: A New Way to Separate Mixtures* 184
Birch, F., Robertson, E. C. and Clark, S. P. Jr. *Apparatus for Pressures of 27,000 Bars and Temperatures of 1400° C* 20
Bird, J. H. and Dimitroff, A. Z. *Cathodic Protection for Earth-Buried Pipelines and Other Metal Structures* 147
Bird, J. M. and Dempsey, J. C. *Temperature Logs Aid Gas Storage Well Analysis* 330
Bird, R. B. See Slattery, J. C.
Birkebak, R. C. and Hartnett, J. P. *Measurements of the Total Absorptivity for Solar Radiation of Several Engineering Materials* 89
Birks, L. S. and Brooks, E. J. *X-Rays Lighten the Analytical Load* 293; and Gourlay, G. W. *Compact Curved-Crystal-X-Ray Spectrometer* 183
Bishop, M. and Ward, D. L. *Direct Determination of Mineral Matter in Coal* 149
Bittker, D. A. *Analytical Study of Turbulent and Molecular Mixing in Rocket Combustion* 260
Bizal, R. B. *Growing Storage to Help LPG Pricing* 279; *More Gas Being Stored Underground* 136
Blachly, C. H. See Stone, J. P.
Black, C. *Phase Equilibria in Binary and Multicomponent Systems. Modified van Laar-Type Equation* 124; *Vapor Phase Imperfections in Vapor-Liquid Equilibria. Semi-empirical Equation* 124
Black, J. T. *Combination Fluid Fuel Burner* 82
Black, R. M. *Double-Bond Formation in Paraffinic Hydrocarbons on Exposure to Ionizing Radiation* 156
Blackburn, L. C. *Quality Control Problems at Coke Ovens* 212
Blackett, J. H. See Hawksley, P. G. W.
Blackwood, A. K. and Elliott, M. A. *Development of a Test Code and Correction Factors for Diesel Engines—A Progress Report* 236
Blair, J. W. and Amis, E. S. *Chromatography of a Mixture of Hexane, Chloroform and Benzene on Silica Gel* 90
Blanchard, A. *Lacq: Its Problems and Potentialities* 271

SUBJECT INDEX

A

ABSORPTION
carbon dioxide in water, by bubble scrubber 54, 351
packed column design, graphical solution 153
review of recent fundamental studies and applications 122

ACETYLENE
acetaldehyde as selective solvent 174
addition compounds with mercaptans 137
adsorption recovery by active carbon-water slurry 75
annular coke mass as quencher for cracked gases 174
burner designs and costs, Soc. Belge de l'Azote Process 172
burner with external annular oxygen supply 310
by partial oxidation, with quenched change of direction 112
chemical derivatives need 6 billion CF/year 126
combined carbide and ammonia-soda process 258
combustion cracking of propane and natural gas 36
comparison of other processes with oxidation pyrolysis method 108
cracking of propane, ethane and methane 137
cyclic regenerative pyrolysis furnace 283
equipment design avoids detonation 330
four-column scrubbing system with acetone 174
from coke oven gas by pyrolysis 75
future production competitive but hopeful 71
high flow speed burner apparatus 174
hydrogenation of, on nickel pumice 281
improved burner, incomplete combustion 283
incomplete combustion burner avoids preignition 202
new high-temperature combustion process 19
new process on various feeds in Japan 108
partial oxidation in packed bed 37
photosensitized polymerization 36
production for vinyl polymers 199
production from methane and nitrogen with hydrogen cyanide 333
purification, homolog removal 202
recovery by scrubbing with aqueous ammonia 310
regenerative 3-stage thermal process 231
SBA-Kellogg process, economics 330
scrubbing with methyl formamide 18
selective catalytic hydrogenation 331
selective conversion in mixtures with ethylene 75
two-stage catalytic cracking of hydrocarbons 202

ADSORPTION. See also Carbon Black; Catalysts; Chemisorption
activated gas on surfaces 152
alkanes on silica and alumina 293
behavior of nickel during hydrogen reduction 152
carbon disulfide on alumina 55
charcoal-water slurry for purifying gas 76
dead space error 96
developments 21
effect of layers on isosteric heats 16
gas molecule behavior on charcoal 152
granular treatment of gases 21
heat capacities of argon on *Graphon* 16
heats, neon, argon, krypton, xenon on charcoal 55
hydrogen (dissociated), by metallic surfaces 241
in vapor flow through plastics and microporous barriers 152
mechanisms studied by radioisotope tracers 93
molecular sieve separation of aromatics 55
oxygen and carbon monoxide on tungsten 293
preferential, nitrogen-methane in molecular sieves 294
review of industrial and unit operations 122
thermal disorption from solids 214
transitions in methane, regions below one monolayer 152
water on silica by NMR relaxation 347

AIR. See also Liquefaction
determination of water-soluble salts 15

AIR CONDITIONING. See also Heat Pump
absorption type gives better factory quality in product 113
advantages of sorbent type dehumidification in air conditioning 143
applications of insulation in comfort heating 285
by active charcoal adsorption for odor removal 77
control of humidity 2
cost evidence to justify in various building types 2
costs, absorption and compression compared 335
current news on research 176
development of automatic control systems 142
domestic market vast 303
double zone two-velocity systems 232
evaporative cooling in greenhouses 43
external exchanger for final dehumidification 288
fan-coil perimeter for multistory buildings 335
fog elimination, solution of problems 335
four steps in design 43
gas-fired boiler for system 310
heat pumps now replaced by gas equipment 176
high interest and activity in gas industry 176
humidity chart guides speed the design of systems 113
humidity control, glycerol-water solutions 77
improved output in meter factory 176
improved school efficiency 115
improves work quality in factory operations 2
large scale, gas fueled equipment 204
leakage in multistory buildings 204
popular control systems improved 335
promotion of summer load 113
residential survey justifies promotional efforts 159
selection of system for multistory buildings 310
solution bypass improvement 288
survey shows possibilities of aggressive salesmanship 126
system with bypassed absorber for heating 288
wall cabinet air mixer 288
wall impedances in computing cooling load 43

AIR POLLUTION. See also Dust; individual contaminant compounds
activated carbon filter for pollutants 336
analytical methods for deposits, sulfur dioxide and smokes 89
by irritant smog, relation to fuel composition 335
by odorants, and control 78
carbon adsorption of nitric oxides 233
coke oven smoke suppression 78
combustibility, auto exhaust gases 336
combustion catalyst for smoke and odors 261
comparison of reflectance and transmittance standards 293
control of power stations, Los Angeles area 82
control of sulfur oxides in stack gases 6
control of wastes 43
"disaster-day" prevention program in Los Angeles 205

dust deposition study, Milwaukee 232
efficient treatment by Venturi scrubber 232
eye irritant formation from pure organic compounds 205
fall of dust, deposition patterns and weather 153
freeze-out method for trace hydrocarbons 205
increased collection of fly ash as byproduct 172
irradiation factor in aerosol formation 205
Karachi smokeless due to gas fuel 43
kinetics of smog-forming reactions 143
model studies, meteorological phenomena 233
model wind-tunnel experiments on stacks 6
nature and control of auto exhaust 143
nitrogen oxides, effects and control 3
paint solvent catalytically burned for heat recovery 78
photochemical reactions in urban air 260
photochemical reactions, motor exhaust 233
progress in control by steel industry 172
protein content, sampling study 89
recorder for evaluating abatement devices 286
reduction by improved combustion equipment 3
reproducible density (smoke) device 293
research on refinery waste control, and costs 78
review of industrial odor control 286
review of legislation, enforcements and interim control 78
review of world research on pollution 219
smoke in New York-New Jersey metropolitan area 82
special study of Louisville, Ky., problems 205
stack gas dispersion 6
stack gases distribution by tracer method using induced radioactivity 82
sublimation methods for solids 344
survey of emissions 286
toxicity of ozone 285
upper atmosphere nitrogen oxides eliminated 285
waste gases catalytically consumed 3

ALCOHOLS

effect of temperature and pressure on methanol synthesis 172
methanol from natural gas, for aldehyde-pentaerythritol production 71
methanol synthesis plant combined with hydrogenation plant 110
silyl ethers detectable by mass spectrum 239

ALDEHYDES

partial oxidation of methane-propane 37
sodium bisulfite trapping reagent 182

AMMONIA

improved hydrazine product from azeotrope-breaking by aniline 199
selective scrubbing from carbon dioxide mixtures 20
synthesis from coke-oven gas 71
synthesis gas by two-stage oxidation 202
synthesis, with hydrogen from fuel oil source 108
synthetic output must expand by 1975 331
use in separation of copper and nickel 108

ANALYTICAL INSTRUMENTS. See also Electron Microscope; Emission Spectrograph; Gas Chromatography; Infrared Spectrophotometer; Mass Spectrometer; X-Ray Spectrograph

automatic differential thermal analysis 345
chromatographic control improves propane recovery 149
control of debutanizer column 149
control of refinery products 92
differential thermogravimetric balance 212
flame photometry for TEL 54
gas sampler combined with thermocouple 14
high pressure mercury porosimeter 212
in nondestructive testing 91
infrared absorption of carbon monoxide, carbon dioxide and methane 90
infrared apparatus developments 150
latest review of field emphasizes emission methods 151
magnetic balance for decomposition loss 345
modern instrumental techniques in processing 212
potentiometric electrodes in titrimetry 54
progress in ultraviolet spectrophotometry 148
status of nuclear magnetic reactor as analytical tool 148
suggested applications in process control 90

APPLIANCES. See also Air Conditioning; Burners; Cookers; Dryers; Heaters; Incinerators; Pilot Lights; Refrigerators

accelerated life tests 44
A.G.A. requirements only for appliance regulators 177
all sales made good 1957 gains 125
changes in design 43
compact, multi-appliance house unit 177
costs to rise with increased missile activity 1
demand for speed, economy and beauty 43
effect of organic sulfur in gas utilization 182
European requirements, performance and sales competition 2
five-year (1958-62) sales forecast 125
heating and air conditioning, directory 260
high capacity cascade refrigerant system 145
in terms of prospect's viewpoint 98
length of service life of home equipment 113
mobile unit houses' appliances 125
new homes a big 1958 prospect 43
sales programs to expand LPG market 125
small commercial baking equipment 44
suitable operating gas pressure and densities 233
testing panel, multicomponent 286
types available in Moscow 208

AROMATICS. See also Benzene; Naphthalene

BASF-Scholven pressure treatment 331
commercial experience, Udex extraction 255
demand by chemicals and motor fuels 331
forerunnings separation, cost of Holmes-Taylor process 72
fused rings detected as molecule ions 239
new coke plant refineries for pure BTX 6
new Vickers plant counts on location 318
oil-based aromatics to gain by steel slump 137
price drop indicates overcapacity 318
production by thermal hydro-alkylation 279
production from petroleum, catalytic process 71
rapid determination method, by forming diarylmethane dye 182
selective extraction from paraffins with ethylene and propylene glycols 71
separation by elution chromatography 239
separation processes for pure xylenes 331
washed from adsorbent bed by methanol 37

ASPHALT. See also Coatings

laboratory and field tests to evaluate asphalt 119

AUTOMATION. See also Compressor Stations; Telemetering

advances in transmission systems 327
application to Northern Natural's Hooper Station 226
Atlantic's natural gasoline transfer and storage 179

automatic logging system with pinboard technique 312
basic factors in electronic process control 340
basic theory in linear control systems 24
capital expense must be justified by earnings 340
centralized or sectionalized control depends on reliability 135
circuit testing in station control 276
Columbia Gas System's remote control 276
complete, with computer in feedback 179
completely centralized pipeline control 196
control, logging, alarm and computing integrated by RCA pipeline system 180
design for transmission systems 226
development of control systems for air conditioning 142
effect of hydrates on system 276
electronic-control fluid cat cracker 236
evaluation of automatic control of stations 169
first long line remotely controlled, Four Corners 197
five-station system of Gulf Interstate 196
gas industry leads in applications 196
hypothetical 500-mile line 106
justified only by improved performance 340
new Finnish refinery electronically controlled 180
operation to improve dehydration 236
program, analog, converting control data 262
program, control, punched tape or card 262
roundup of process control for tomorrow's plants 289
statistics of control systems of sampled data 84
status of application in gas and oil industry 226
Topeka diesel station of Great Lakes Pipe Line Co. 197
Union Oil Company's plant goes automatic 134

B

BENZENE. See also Aromatics
hydrogenation refining, operation 72
presence often masked in pyrolysis products 239
refining by Udex solvent extraction 72
removal by nickelous cyanide 196

BURNERS. See also Flame Research; Ignition; Pilot Lights
adapter for combination oil-gas fuel 82
annulus-feed burner for partial combustion of gas 179
applications of jet types 5
carbureting blower type 235
ceramic surface combustion type for low-Btu gas 143
conversion, slidably mounted 82
cooking top, with central and peripheral ports 44
flashback, hydrogen and propane 336
flat flame, headplate 289
for annular combustion chamber 145
for flame characteristics of atmospheric type 78
for heat-treating furnace, vertical arrangement 82
furnace wall burner, multiple nozzle 116
furnace wall for gas-oil with concentric rings 82
gas-fired radiant tube 44
high capacity, wide range 82
high turndown ratio, linked gas and air supply 83
high-velocity jet burner for thawing coal cars 115
immersion, for tank freezeup protection 177
infrared, for thawing coal cars 81
jet-fired tubular, with balanced recirculation 83
jet, for high heating ratio 3
kinetic energy studies of air entrainment 143
lightweight, for space heating 312
linked air and gas control 44
low-high range maintained by peripheral groove, radial smaller diameter ports 312
multijet for boilers 289
multisection port type 207
multisection port, with rounded port edge 208
noiseless, for high-pressure gas 207
parallel slot port assembly 145
phased pulse-jet system 208
pilot, self-igniting, large 44
porous annular-wall mixer 235
pressure, with deflector nozzle 312
pulsating wick-fed burner 83
pulsation problems in power burners 177
radiant, ceramic target 47
radiant cup, for furnace wall 312
radiant range top 289
safety shutoff thermoelectric control 3
secondary air shield for stabilizing 235
sectional planar, with individual air control 289
stabilizing slots in nozzle for steady flame 179
stamped, sheet metal, vertical 312
venturi tube, finned and shuttered section 3
venturi-type for low heat input adjustment 82
with radial slit nozzles 288
with steel wool radiation reflector 83

BURNER CONTROLS
explosion prevention in heat-treating furnaces 80

BUTADIENE
ample supply for present chemical outlets 318
commercial production processes 19
expanded plant at Neches doubles annual output 229
from methane via acetylene 331
integrated plant at Odessa 19
solvent extraction from butane 41

BUTANE. See also Paraffins
reaction with methylene 58

C

CALORIMETRY
automatic adiabatic bomb 22
automatic recording precision equipment 22
radiation-flux measurement 22
sampling gases, with dust and free-moisture removal 147
standard equipment and manipulation 120

CARBON
activated, adsorption of oxygen 214

modified spectrograph uses electron multiplier 347
preparation of metal powders 267

Services Available to GAS ABSTRACTS' Readers

Photocopies

Photocopies of all articles abstracted in *Gas Abstracts*, except those printed in Russian (see below), are available from the Institute at cost.*

Types of Photocopies

Depending on the "tightness" of the binding (which determines whether pages can be laid flat without breaking the binding), and the color of the paper and ink used in the original being copied, photocopies may take any of several forms:

1. Positive paper prints made by the reflex process.
2. Positive paper prints enlarged by xerography from microfilm negatives.
3. Negative photostats.
4. Positive photostats.

Choice of the method used must necessarily rest with the Institute. All photocopies are approximately the same size as the original material.

Cost of Service

The photocopy service charge is:

First 5 pages or fraction thereof of one article in one issue or book.....$1.50

Each subsequent 4 pages or fraction thereof of the above one article in the same issue or book..$1.00

Invoices are rendered to the Institute's Members and Contributors only; payment in advance is required of others.

The Institute may, at its option, fill orders from non-Members and non-Contributors without payment in advance, but an additional charge of $1.00 to cover billing costs will be made on each such order.

Microfilm

Microfilm copies of articles abstracted in *Gas Abstracts* are likewise available at cost.* The material is photographed on 35 mm unperforated negative film at 5¢ per page, with a minimum of 50 pages, $2.50, per order. Invoices are rendered to the Institute's Members and Contributors only; payment in advance is required of others.

The Institute may, at its option, fill orders from non-Members and non-Contributors without payment in advance, but an additional charge of $1.00 to cover billing costs will be made on each such order.

Russian Translations

The abstracts of Russian articles are obtained from services specializing in this field. English translations of the articles abstracted can be supplied by arrangement with the appropriate abstractor.

Bibliographies and Literature Searches

The library will prepare bibliographies and make literature searches on a cost basis plus a service charge. A comprehensive statement detailing the problem must be presented with the request.

Gas Abstracts on Cards

The abstracts in each monthly issue are also printed individually on 5 x 8-inch cards. Each card bears at its top the author and subject headings under which it may be filed. As many copies of each card are supplied as there are headings on that card, enabling filing of the abstract under all of its headings, eliminating cross-indexing.

The annual subscription to *Gas Abstracts on Cards*, a mailing of 500-1000 cards each month, is $120.00 to U. S. addresses, $150.00 foreign.

Since the printing order for cards is based on the current number of subscribers, a subscription for this service commences with the month in which the order is received. Back numbers of *Gas Abstracts on Cards* are not available.

Back Numbers of Gas Abstracts

In response to an increasing number of requests from utilities, colleges, and technical libraries which have only recently learned of the reference value of *Gas Abstracts*, the Institute has taken steps to make available single numbers, volumes, or complete files of this publication to date, starting with Vols. 1 (1945) and 2 (1946), some numbers of which are out of print.

The latter numbers are reproduced by a photoprinting process from copies in the Institute's libraries, and Vols. 1 and 2 can now be purchased at $35 per volume, unbound; single monthly numbers are offered at $3 each.

Vols. 3 to date are available at current subscription prices, $18 per volume to U. S. addresses, $22 foreign. Monthly numbers are $2 each.

---

*In requesting and accepting photocopies or microfilm copies, the applicant agrees to the following:

1. The applicant desires this duplication solely for use in lieu of loan or manual transcription. Responsibility for questions of copyright that might arise in this copying, and in the use of the copies, is assumed by the applicant.

2. The applicant understands that the Institute does not sell the photocopies, but merely performs the service of copying at the applicant's request; the fee paid is exclusively for such service and is established on the basis of no profit to the Institute.

3. The Institute reserves the right at its own discretion to decline to make photocopies requested, or to limit the number of copies, within the principle of fair use of copyrighted material.
